

**TECHNISCHE DATEN:**

|                       |                          |
|-----------------------|--------------------------|
| Nennstrom:            | 2 A DC / 1 A AC          |
| Nennspannung:         | 16 V DC / 100 V AC       |
| Isolationswiderstand: | 100 MΩ min. bei 250 V DC |
| Kontaktwiderstand:    | 30 mΩ max.               |
| Spannungsfestigkeit:  | 500 V AC                 |
| Steckkraft:           | 0,3~3,0 kg               |
| Ziehkraft:            | 0,2~2,0 kg               |
| Lebensdauer:          | 5000 Steckzyklen         |

**MATERIAL:**

|                    |         |
|--------------------|---------|
| Gehäuse:           | PBT     |
| Center Pin:        | Messing |
| Kontakt Anschluss: | Messing |

**BESCHICHTUNG:**

|                    |            |
|--------------------|------------|
| Center Pin:        | Vernickelt |
| Kontakt Anschluss: | Versilbert |
