RB-STROMPI3BAT-XL

Extra large battery pack for StromPi 3

This battery hat turns the StromPi V3 into a full-featured UPS solution. The replacement battery is provided as third current source, is surveilled and will be recharged automatically.

With the doubling of the rated capacity, the lifespan is nearly twice as long compared to the 1000 mAh battery.

MAIN FEATURES

Type	Lithium iron phosphate (LiFePO4)
Capacity	2000 mAh
Voltage	3,2 Volt
Special features	directly attachable to the StromPi 3
	will be charged immediately pin header lead-through own protection- and charge electronic
