RB-ALUCASEP4+08

Aluminium case - for Raspberry Pi 4 B with cooling performance

This aluminium case in a precious design is very robust and protects your Raspberry Pi 4 B perfectly against outer influences. There are cut-outs for all interfaces to make them accessible. The channel milling at the top side serves as a heat sink and inside the housing the case is in direct contact with the CPU and the RAM to maximize cooling results.

KEY FEATURES

Color	matt black (gun-metal black)
Material	high-quality, cast aluminium
Compatible with	Raspberry Pi 4 B
Special Features	channel milling which serves as a heatsink, cut outs for all interfaces, Heatsink in contact with CPU and RAM of the Raspberry for better cooling performance
Items delivered	RB-AlucaseP4+08, Screws, heat conduction pads
